PROFESSIONAL SUMMARY

Computer Science undergraduate and Frontend Developer specializing in building high-performance, user-centric web applications. Proficient in modern web technologies including React, JavaScript (ES6+), and Git, with a strong foundation in Data Structures, Algorithms, and UI/UX engineering. Adept at bridging complex software logic with clean, scalable architecture and performant, responsive design.

TECHNICAL SKILLS

- Frontend & Frameworks: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Three.js / WebGL, GSAP
- Backend & Tools: Node.js (RESTful API Integration), Git, GitHub, REST APIs
- Core Computer Science: C++, Python, Data Structures & Algorithms, Object-Oriented Programming
- Design & UI/UX: Figma, UI/UX Principles, Color Theory, Typography, Motion Design, Responsive Web Design

FEATURED PROJECTS

CampusPadi — Web Application Suite / *Assistant Frontend Developer & Project Manager*

- Architected and developed key web application modules (CampusPay, CampusNotes) using React, Tailwind CSS, and Node.js, facilitating automated intra-departmental payment solutions and academic resource sharing.
- Integrated RESTful APIs and optimized state management, ensuring responsive UI components and smooth user flows across web and mobile platforms.

Interactive 3D Web Portfolio / *Lead Developer & Designer*

- Engineered a high-performance personal portfolio integrating WebGL / Three.js 3D elements and GSAP scroll-triggered animations without compromising page render performance.
- Utilized modular component structure, intersection observers, and asset compression techniques for fast load times and cross-browser responsiveness.

ACHIEVEMENTS & HONORS

- Finalist, International Computer Science Competition (2025): Selected to compete at an international level, demonstrating advanced problem-solving, algorithmic efficiency, data structures, machine learning principles, and LLM concepts.
