

Ifechukwu E. Ibeneme

Frontend Developer & Computer Science Undergraduate

Enugu, Nigeria | hermes.e.official@gmail.com | [Your LinkedIn/Github]

Professional Summary

Computer Science undergraduate with a unique blend of technical logic and artistic vision. leveraging a strong background in art (color theory, composition) to build aesthetically precise and user-centric web interfaces. Proficient in C++ and Modern Web Technologies, with a focus on bridging the gap between design principles and functional code.

Technical Skills

- Languages: C++, JavaScript (ES6+), HTML5, CSS3.
- Design: UI/UX Principles, Color Theory, Composition, Figma.
- Core Concepts: Data Structures, Algorithms, Responsive Design.

Achievements & Awards

- Participant and finalist, International Computer Science Competition 2025: Selected to compete at an international level, demonstrating advanced problem-solving capabilities and algorithmic thinking.

Projects

- Personal Portfolio Website (2025): Designed and developed a high-performance, interactive portfolio using vanilla JavaScript, HTML, and CSS. Implemented custom 3D assets, intersection observers for scroll animations, and a responsive layout without relying on heavy frameworks.

Education

- Bachelor of Science, Computer Science | Enugu State University of Sciences and Technology | 2022 - Present
